Report of Independent Auditors

The Board of Directors and Stockholder
AFSG Securities Corporation

We have audited the accompanying statements of financial condition of AFSG Securities Corporation as of December 31, 2001 and 2000, and the related statements of operations, changes in stockholder's equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of AFSG Securities Corporation at December 31, 2001 and 2000, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States.

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplemental information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

AFSG Securities Corporation

Notes to Financial Statements

December 31, 2001

1. Principal Activities and Significant Accounting Policies

Organization

AFSG Securities Corporation (the Company) is a wholly owned subsidiary of Commonwealth General Corporation (CGC), an indirect wholly owned subsidiary of AEGON N.V., a holding company organized under the laws of The Netherlands. The Company is a registered broker-dealer under the Securities Exchange Act of 1934 whose principal business activity is the sale of variable annuity contracts issued by affiliated insurance companies. Beginning in 2001, the Company also acts as an investment advisor, principal underwriter and transfer and dividend disbursing agent for the IDEX Group of Mutual Funds (the IDEX Funds) sponsored by affiliates.

Basis of Presentation

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Commissions

Commission income on sales of variable annuity contracts is determined as a percentage of collected premiums of the affiliated insurance companies. Commission expense on sales of variable annuity contracts is paid on behalf of the Company by an affiliate in an amount equal to commission income.

Sales commissions earned along with the related commission expenses on the distribution of mutual fund shares without 12b-1 fees are recorded on the trade date (the date the orders are executed). Sales commissions on mutual fund shares with 12b-1 fees are recognized as such fees are earned.

AFSG Securities Corporation

Notes to Financial Statements (continued)

2. Income Taxes

The Company files consolidated federal and state income tax returns with certain affiliates. Under the terms of a tax-sharing agreement, each member of the group has agreed to pay its proportionate share of income taxes calculated on a separate return basis, except that tax credits and net operating loss carryforwards are determined on the basis of the consolidated group. Deferred income taxes have been established by each member of the consolidated group based upon temporary differences within each entity.

Deferred income taxes arise primarily from differing methods used to account for expenses not deductible until future periods for tax purposes. Net deferred income taxes are comprised entirely of gross deferred income tax assets at December 31, 2001. There were no deferred income taxes at December 31, 2000.

3. Transactions With Affiliates

The Company is a member of a group of affiliated companies which are engaged in the sale of life insurance, annuities and other investment related activities. A substantial portion of the Company's operating expenses are paid to affiliates and represent both items specifically identifiable as attributable to the Company and an allocation of shared expenses among several affiliates, of which the Company's portion of these shared expenses was approximately \$2,173,282 for the year ended December 31, 2001. Substantially all investment advisory, management and distribution fee revenue is derived from the Company's administration and marketing of the IDEX Funds. In addition, the Company recognized revenue of \$21,512,378 from the sale of rights to future 12b-1 fees and contingent deferred sales charges to Money Services, Inc., an affiliated company.

Prior to 2001, the Financial Markets Division of AEGON USA, Inc., an indirect wholly owned operation unit of AEGON N.V., provided the Company with various administrative services at no cost.

AFSG Securities Corporation

Notes to Financial Statements (continued)

4. Net Capital Requirement

The Company is subject to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act of 1934. This rule prohibits the Company from engaging in any securities transactions at a time when (a) its "aggregate indebtedness" exceeds 15 times its "net capital" or (b) its "net capital" is less than a minimum amount as those terms are defined by the rule. Net capital and the related net capital ratio may fluctuate on a daily basis. At December 31, 2001, the Company had net capital of \$5,481,269, which was \$5,231,112 in excess of its required net capital of \$250,157. The Company's ratio of aggregate indebtedness to net capital was .68 to 1. Various other regulatory agencies may impose additional capital requirements. The Company is exempt from maintaining a special reserve bank account under Rule 15c3-3(k)(1).

5. Sale of Future Rights to 12b-1 Fees and Contingent Deferred Sales Charges

In conjunction with the Company becoming the principal underwriter for the IDEX Funds during 2001, the Company entered into an agreement with Money Services, Inc. (MSI), a related party and an indirect wholly owned subsidiary of AEGON N.V., to sell the future rights to 12b-1 distribution fees and the contingent deferred sales charges to MSI. The sales price is based on the amount of the deferred sales costs and, accordingly, there is no gain or loss on the transaction. The proceeds from such sales and the related commission expense related to the immediate amortization of the deferred sales costs asset was \$21,512,378 during 2001. During the term of the agreement, MSI shall at no time sell or pledge the 12b-1 fees to the Company. The management of AEGON N.V.'s U.S. operations has expressed its intent to uphold the terms of this agreement and, accordingly, not permit MSI or any other affiliate to have any recourse against the Company related to such sale.

AFSG Securities Corporation

Statement Pursuant to Rule 17a-5(d)(4)

December 31, 2001

There were no differences between the computation of net capital under Rule 15c3-1 included in this audited report and the computation included in the Company's corresponding unaudited Form X-17A-5 Part IIA filing as amended and submitted to the National Association of Securities Dealers, Inc.

Independent Auditors' Supplementary Report on Internal Control

The Board of Directors
AFSG Securities Corporation

In planning and performing our audit of the financial statements and supplemental schedules of AFSG Securities Corporation (the Company) for the year ended December 31, 2001, we considered its internal control, including control activities for safeguarding securities, to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the criteria stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following: (1) making quarterly securities examinations, counts, verifications, and comparisons; (2) recordation of differences required by Rule 17a-13; and (3) complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the criteria of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with accounting principles generally accepted in the United States. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control or the practices and procedures referred to above, misstatements due to errors or fraud may occur and not be detected. Also, projections of any evaluation of internal control to future periods are subject to the risk that internal control may become inadequate because of changes in conditions, or that the effectiveness of its design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of one or more of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities and its operation that we consider to be material weaknesses as defined above.

We understand that practices and procedures that meet the criteria referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not meet such criteria in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2001, to meet the SEC's criteria.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, the National Association of Securities Dealers, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than those specified parties.
